

As we continue to focus on recycling, reducing and reusing as well as composting, and conscious choices we are making the world a better place! From raising butterflies and plants to using the right size of paper to lessons on not wasting water, all the classes have expanded their knowledge and understanding of nature and the world in which they live.

Our Average Recycling Efforts

- ❖ Recycled 6.5 tons of paper
- ❖ Saved 19.7 cubic yards of landfill space
- ❖ Saved 26,296 kilowatt hours of electricity
- ❖ Saved 44,846 gallons of water
- ❖ Saved 103 trees
- ❖ Saved 3,786 pounds of air pollution
